# MODEL: UJ32-C-V-G-TH-7-P24-TR | DESCRIPTION: USB RECEPTACLE

#### **FEATURES**

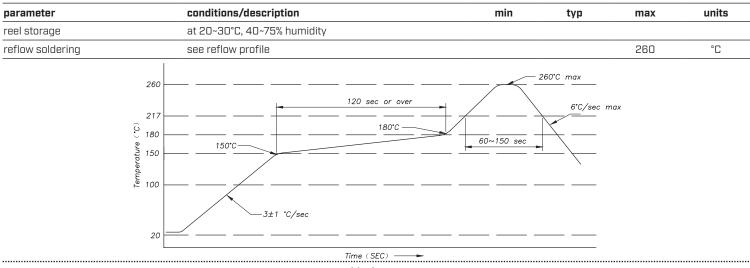

- USB Type C receptacle
- USB 3.2 Gen 1
- 5 Gbit/s data transfer speed
- reflow solder compatible
- tape & reel packaging

# **SPECIFICATIONS**

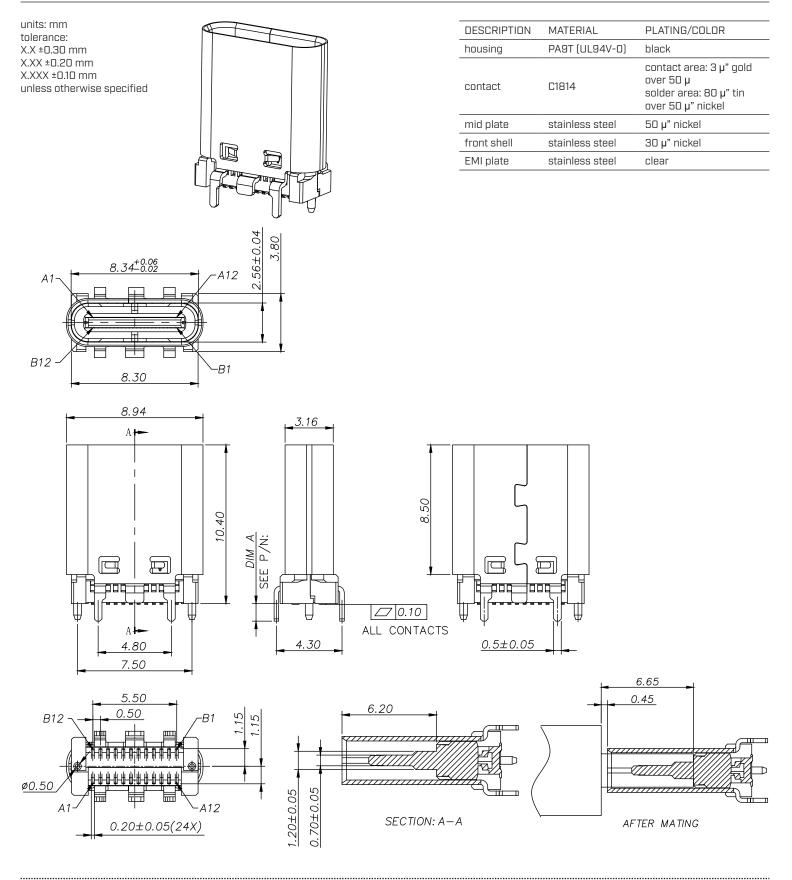

conditions/description	min	typ	max	units
USB 3.2 Gen 1				
			48	Vdc
as per EIA-364-70, Method B power pins collectively (A1, A4, A9, A12, B1, B4, B9, B12) VCONN pins individually (A5, B5) all other signal pins individually			5.0 1.25 0.25	A A A
between terminals and mating plug			40	mΩ
at 100 Vdc between adjacent contacts	100			MΩ
between adjacent contacts for 1 minute	100			Vac
at a rate of 30 cycles/min	5		20	N
at a rate of 30 cycles/min	8		20	N
at a rate of 500 cycles per hour		10,000		cycles
	-25		85	°C
UL94V-D

The revision history provided is for informational purposes only and is believed to be accurate.

CUI Devices offers a one (1) year limited warranty. Complete warranty information is listed on our website.

CUI Devices reserves the right to make changes to the product at any time without notice. Information provided by CUI Devices is believed to be accurate and reliable. However, no responsibility is assumed by CUI Devices for its use, nor for any infringements of patents or other rights of third parties which may result from its use.

CUI Devices products are not authorized or warranted for use as critical components in equipment that requires an extremely high level of reliability. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.
